Student Centric Methods-

College believes in the adoption of student centric methods to enhance involvement of students as a part of participative learning and problem solving methodology, lecture method, interactive method, project and field work method, experiment method, computer-assisted method etc. The conventional chalk and talk method is also used by the teachers. Along with these methods teachers also use PowerPoint presentations and computer-based materials, Seminar and quiz are also a part of teaching method. Field Visit, Industrial visit and Guest lectures/Lecture series are also incorporated in student centric methods.

Experiential Learning

This method is used in science subjects, geography, personality development, physical education, Desktop Publication etc. to acquire knowledge through direct experience at individual level. With the help of experiments students know the basic fact of the topic deeply and easily. Students take keen interest in experiential learning.
