- The College organized a lecture on **Research Methodology and IPR (Intellectual Property Rights) during the year 2021-22**

➤ Keeping in mind the importance of research in higher studies, a lecture on Research Methodology was organised for the postgraduate students and research scholars of the college. The guest speaker for the lecture was Dr. S.K. Sangi, chief scientist CSIR -AMPRI Bhopal. Dr. Sangi covered various topics under research methodology. He explained that it is a logical systematic plan to resolve a research problem. A methodology details a researcher's approach to the research to ensure reliable and valid results that address their aims and objectives. A Systematic research provides scientifically sound findings. It also provides the detailed plan that keeps the researcher on track, making the progress smooth, effective and manageable. The various steps of research process include:

1. Formulation of a research problem.
2. Creation of a research design
3. Constructing instrument for data collection
4. Selecting a sample
5. Writing the research proposal
6. Collecting data
7. Processing data
8. Writing the report.

He concluded that the significance of a research lies in its quality and not in quantity. The need there fore is for those concerned with research to pay due attention to designing and adhering to appropriate methodology throughout for improving the quality of research.

Dr. Ila Jain  
Dr. Naval Singh  
Dr. K.K. Mishra  
Dr. S.K.Malhotra  
Dr. Neetupriya Lachoria

**Dr. Ragini Tiwari**  
Principal

- Over the last two decades, IPR have progressed to the point that they now play a significant part in the Global economy's development. The successful completion of the Agreement on Trade Related Aspects of Intellectual Property Right (TRIPS) in the WTO resulted in increased protection and enforcement. In India, the changes pertaining to IPR took a major reform towards the end of 20th century. In this context, Intellectual Property Right awareness is critical to shape an environment that is conducive to fostering creativity and innovation. Keeping this fact in view, the one day seminar was organised to highlight the major laws that govern the IPR sections of the country. Dr. VP Singh Gaur, Professor, Political Science graced the occasion as Chief Speaker. IPR issues including patent, trademark, copyright, design, trade secrets, geographical indicator and plant varieties were discussed and debated in this seminar.
